WMO-No. 1205
Guidance on
developing and
using frameworks

WMO-No. 1209
Compendium
bringing the
frameworks
together

WMO-No. 1205: Guide to Competency

Main objectives

- Update the Guide based on experience gained since its publication
- Improve clarity and practical guidance on the development, review and use of competency frameworks
- Strengthen consistency in terminology and approach across WMO competency frameworks and the enabling skills frameworks

Current status

- A small review team is being established to support the revision
- The review and drafting work will be coordinated online
- EC-CDP will be consulted as the revised text develops

WMO-No. 1209: Compendium of WMO Competency Frameworks

Main objectives

- Incorporate new and updated frameworks following the relevant review and endorsement processes
- Clarify the distinction between:
 - Competency frameworks
 - Enabling skills frameworks
- Harmonize terminology and presentation across the Compendium
- Improve guidance on how the different types of frameworks should be understood and used

Proposed structural improvements

- Rename the chapter “Competency requirements” → “Competency frameworks”
- Introduce a “How to use this document” section
- Explain the purpose and application of the different types of frameworks included in the Compendium

Thank You
